Biography

Born in Akron, Ohio, Tracy Eva Beck began studying piano at the age of 5. After playing a song by ear on a toy organ at a garage sale, her mother decided to buy her a piano and lessons. However, after less than a year of lessons, family financial strain led to giving up lessons. Tracy was able to continue to study music over the years though, through school music programs. Family and friends also gifted her several musical instruments, which she taught herself to play. At age 15, she began a year of classical piano training, and also played in the praise and worship band at her high school, Trinity Christian Academy.

Tracy began riding motocross in 2006, and soon after began racing and traveling for competitions. She and her husband currently travel the country together in their motorhome, racing motocross. Her husband owns suspension and racing mods business, Beck's Tech, Inc., in Port Orange, Florida. He provides trackside suspension services as a part of his business, while they travel. Tracy has set up a mobile recording studio in their motorhome, and stays busy making music, even when on the road. When in town, she teaches her grandchildren about music, hoping to inspire a love for music in each child.
